Re: EBSA-2010-0050-0204

DO NOT implement this rule nor anything resembling it. We know what we are doing by using options in retirement accounts. We are increasing the safety, stability, and returns on capital of our life savings for retirement.

Options insure some of my investments and increase my total return on others. They reduce my risk! Stop stealing our freedom. Cease and desist regulating for the sake of regulating. GO AWAY!!!!

The noted aircraft designer Ed Heinemann urged engineers to "Simplify and add lightness." This massively bloated, self aggrandizing, incompetent Federal Government could help all the people of earth by heeding that advice. Every law, rule, regulation, and interpretation thereof beyond a one page printing of The Ten Commandments should be eliminated.
